

***NORTH AMERICAN
PERSPECTIVE ON THE
FUTURE MANAGEMENT OF
SHIPYARDS***

By Roland H. Webb

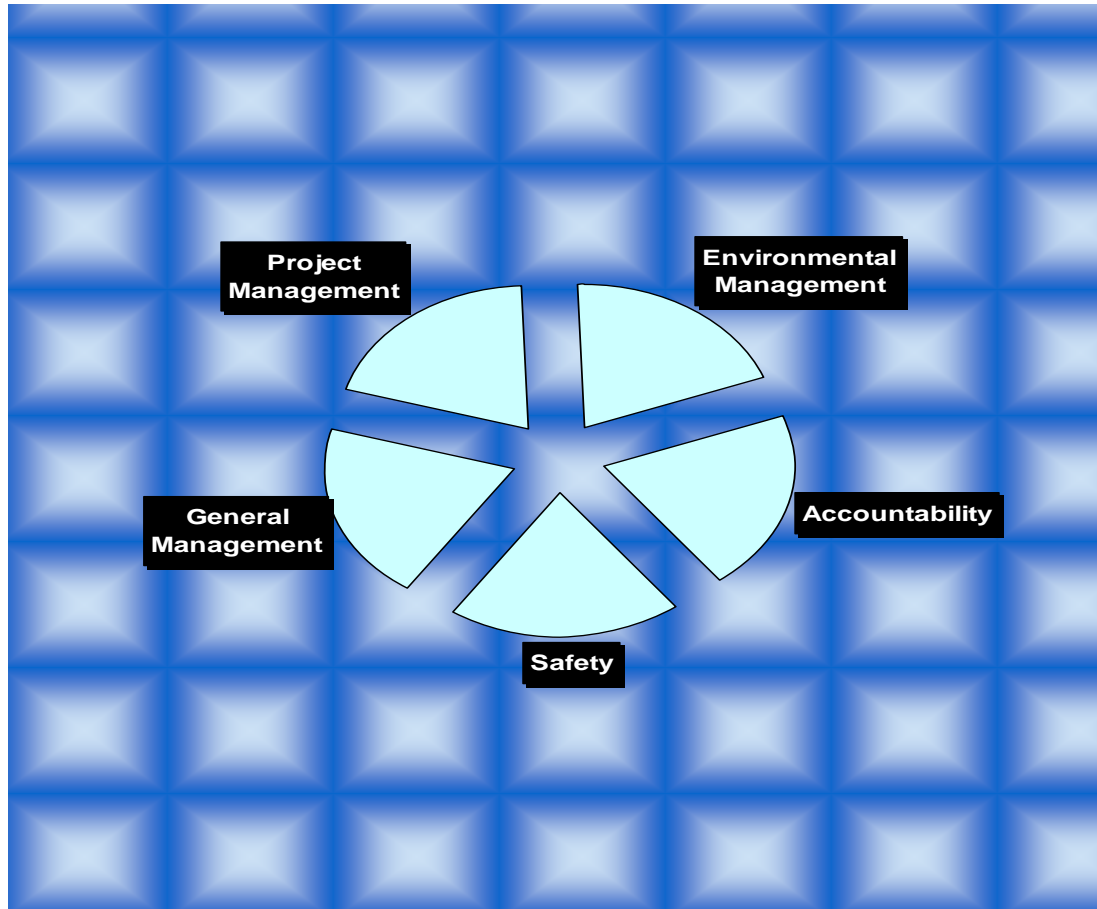

Introduction

How to manage in a future that is unlikely to be significantly different from the current state?

***What is the Market
and
Who are the
Customers?***

***What are the Products
of the Future?***

What is my Current State Regarding?

How productive is my shipyard and how can I make it better?

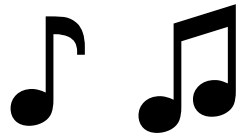

1. God grant me the serenity to accept those things I cannot change,
2. Courage to change those things I can,
3. And the wisdom to know the difference.

What do I want to stop doing?

- a) Consultants
- b) Data versus information
- c) Silver bullets

What do I need to do more of?

- Quality
- Process Improvement
- Speed

Background music.....

***Who is playing it and
What's the tune?***

What does the future state need?

- Management 101
- Facilities
- Human Resources

Which one will it be?
